Forest street project should not be such an issue here I have known these people for years and Dennis has had his business in Hingham for over 35 years They are wonderful people and all they want to do is make things better. I don't understand why the Town of Rockland is stopping them from doing anything at 421 Forest Street No matter what they do it will be a wonderful improvement from what is there already. They are both wonderful people and should be allowed to take care of their property in Rockland. It would be such an improvement that the whole town should be grateful for.
